From 29-30 October, at CityLife - Allianz MiCo, Milan, Italy

FASTENER FAIR ITALY 2024: ONE MONTH BEFORE OPENING, OVER 200 EXHIBITING COMPANIES CONFIRMED

Milan, 30 September 2024 – Milan is preparing to host the fourth edition of Fastener Fair Italy, the leading event for the fasteners and fixing industry, scheduled between October 29 and 30, 2024, at CityLife - Allianz MiCo, in Milan, Italy. With just one month to go, **over 200 exhibitors from 18 countries** have already confirmed their participation, with strong representation from companies in **Italy, Germany, Turkey, China, and Taiwan**, highlighting the strategic importance of the event and the high level of activity in the sector in Italy.

The fair is an unmissable event for manufacturers, distributors, suppliers, and end users of fastening systems and related technologies, as well as a unique opportunity to strengthen business relationships, discover the latest innovations and market trends, and forge new collaborations. In a rapidly evolving economic environment, the fair stands out as the ideal platform for exploring advanced technological solutions and addressing the new challenges related to sustainability and production digitalisation.

The fasteners industry is a key market for numerous industrial sectors, including **automotive, aerospace, construction, electronics, and renewable energy**, driven by the demand for increasingly more efficient and safer solutions. In this context, Fastener Fair Italy offers a snapshot of a constantly evolving sector, with a growing focus on **innovations in materials, process automation, and sustainability**.

According to recent research, the sector's growth is supported by the increase in industrial production and the demand for high-performance components for specific applications. New technologies, such as **smart fastening systems** integrated with sensors to monitor performance, are emerging as innovative solutions to improve production efficiency. The drive toward digitalisation, with the adoption of **Industry 4.0** technologies, is helping to redefine production processes, making them faster, more precise, and sustainable.

Fastener Fair Italy is not only a showcase for Italian companies but also an international event, with exhibitors from around the world. This global dimension reflects the growing interconnectedness of the fastening systems industry worldwide, where cross-border collaborations and international supply networks are essential to maintaining competitiveness. The 2024 edition will feature leading companies in the sector, ready to present innovative solutions ranging from traditional fastener systems to the latest in automated fastening technologies.

The exhibition will offer a dedicated space for technological innovations, showcasing solutions ranging from new materials to advanced production systems, including the latest machinery for assembly and robotics applied to fastening systems. In a scenario where **automation** and **digitalisation** are reshaping the industrial landscape, Fastener Fair Italy 2024 presents an unmissable opportunity to explore these transformations.
